ABOUT COMPANY

EUROJUMPER was founded in May 2007 following the transformation of two existing companies. Our foundation is built on the passion and extensive experience of our founders, who successfully leveraged their years of expertise in various business ventures.

Our core business focuses on the production, sales, and servicing of bungee trampolines.

As industry pioneers, we understand the intricacies of designing and constructing high-quality equipment. Our journey began with operating eurobungee attractions in Poland before expanding to the Greek islands.

Today, our bungee trampolines are delivered worldwide, meeting the highest safety standards. With over 500 satisfied customers, we take pride in our reputation for quality and reliability. Check out our Facebook page to see our latest installations!

We are an ISO-certified company, ensuring excellence in every aspect of our work.

24 MONTHS
WARRANTY

EUROJUMPER

1 in 1 Professional

OPERATION	
SETTING UP TIME	90 minutes
SUPERVISING	1 person
MAXIMUM JUMPER'S WEIGHT	85 kg
JUMPERS AT ONE TIME	1
SPACE REQUIRED	6m x 6m

MEASUREMENTS BUILD OFF (FOR TRANSPORT)	
LENGTH:	4,00 m
HIGH:	3,00 m
WIDTH:	2,00 m
WEIGHT:	400 kg

MEASUREMENTS BUILD ON (READY TO USE)	
LENGTH:	6,00 m
HIGH:	6,60 m
WIDTH:	5,00 m
WEIGHT:	400 kg

BASE UNIT:

30% of the structure is made of aluminium and the base is made of steel. The whole base unit is galvanised steel (inside and out) so you needn't worry about it rusting. The whole unit is made according to special technical calculations that guarantee maximum security.

TOWER POLES:

The tower poles are in two halves and slot easily together to be secured to the base. The tower poles have now been given extra strength by additional sleeving inside.

PURPOSES:

One bed trampoline is a good investment in smaller places where the four bed trampoline is too big. It can be placed inside the shopping centres or any other places.

TRAMPOLINE:

Trampoline 4,27 m (very big for the safe jumping) with spring cover and special spring tool.

OPERATION:

The jumper secured with harness makes jumps and acrobatic movements to the high 7 meters. This can be used by people up to 85 kg.

WINCH:

For single bungee trampoline we use the same Dragon Winch motor but the ropes go under the trampoline.

BUNGEE CORDS:

We supply new units with elastic bungee cords, which we find to provide a superior bungee experience in comparison to the tubular rubber ropes sometimes used in other models. The bungee cords are made in Germany with TUV certificated loops and give 300% expansion.

INCLUDED IN THE PRICE:

ELASTICS & HARNESSES

One set of high quality elastics, each elastic is for 12 kg, 14 in one set. One harness of: 1xs, 1s, 1m, 1L

WINCH

1 x 1200W quality winch made in EU by Dragon Winch.

OTHER PARTS

5 pulleys, 4 swivels, galvanised bolts and carabeena, steel cables, trampoline elastic cover.

EUROJUMPER

WIDTH:	3,00 m
WEIGHT:	450 kg

MEASUREMENTS BUILD ON (READY TO USE)	
LENGTH:	12,00 m
HIGH:	6,60 m
WIDTH:	6,00 m
WEIGHT:	450 kg

BASE UNIT:

Our newest model is a revolution on the market. Easy set up (one person 2 hours), small space required, small investment, fast money return. It's not possible to describe all advantages of our product in words - You must see it !

TOWER POLES:

The tower poles are in two halves and slot easily together to be secured to the base. The tower poles have now been given extra strength by additional sleeving inside.

PURPOSES:

Two bed trampoline is a good investment when the four person is too expensive or the space is limited.

TRAMPOLINE:

Trampoline 4,0 m (big for the safe jumping) with spring cover and special spring tool.

OPERATION:

The jumper secured with harness makes jumps and acrobatic movements to the high 7 meters. This can be used by people up to 90 kg.

WINCHES:

For double bungee trampoline we use Dragon Winch motors which we find the best on the market. It has alpin rope instead of the wire rope.

BUNGEE CORDS:

We supply new units with elastic bungee cords, which we find to provide a superior bungee experience in comparison to the tubular rubber ropes sometimes used in other models. The bungee cords are made in Germany with TUV certificated loops and give 300% expansion.

INCLUDED IN THE PRICE:

ELASTICS & HARNESSES

One set of high quality elastics, each elastic is for 12 kg, 14 in one set. 2 harnesses of: 1xs, 1s, 1m, 1L

WINCH

2 x 1200W quality winches made in EU by Dragon Winch.

OTHER PARTS

16 pulleys, 8 swivels, galvanised bolts and carabeena, steel cables, trampoline elastic cover.

OPERATION

SETTING UP TIME	5 hours
SUPERVISING	1 person
MAXIMUM JUMPER'S WEIGHT	90 kg
JUMPERS AT ONE TIME	4
SPACE REQUIRED	11,5m x 11,5m

MEASUREMENTS

BUILD OFF (FOR TRANSPORT)

LENGTH:	6,60 m
HIGH:	1,40 m
WIDTH:	2,30 m
WEIGHT:	700 kg

MEASUREMENTS

BUILD ON (READY TO USE)

LENGTH:	11,00 m
HIGH:	8,00 m
WIDTH:	11,00 m
WEIGHT:	700 kg

BASE UNIT:

Structure is made in most of aluminium and stainless steel, according to special technical calculations (design review), meet all international safety norms. This model is 8m high what makes it the biggest bungee available on the market. It makes really big impression to the customers

WINCHES:

For 4 person bungee trampoline we use Dragon Winch motors which we find the best on the market. It has alpin rope instead of the wire rope.

POLES:

Aluminium poles are very strong with additional sleeving inside. They are very light for easy assembly. It's made of special aluminium alloy : 6005A

TRAMPOLINE:

4 trampolines 4,27 m (very big for the safe jumping) with spring cover and special spring tool.

OPERATION:

Using bungee cords and secured with adjustable harness (xs, s, m or l) the jumper is bouncing on a traditional trampoline and reach up to 8 meters into the air where they are free to experiment with acrobatic movements and summersaults (our record is 4 in one jump). The play is totally safe and can be even used by children aged 3

BUNGEE CORDS:

We supply new units with elastic bungee cords, which we find to provide a superior bungee experience in comparison to the tubular rubber ropes sometimes used in other models.

The bungee cords are made in Germany with TUV certificated loops and give 300% expansion.

WIDTH:	2,35 m
WEIGHT:	950 kg

MEASUREMENTS BUILD ON (READY TO USE)	
LENGTH:	10,00 m
HIGH:	6,90 m
WIDTH:	10,00 m
WEIGHT:	950 kg

BASE UNIT / TRAILER:

The trailer is easy to be registered in Your country (VIN), EU Homologation. The whole trailer is galvanised steel (inside and out) so you needn't worry about it rusting. Four removable sections of checker-plate cover the base unit making it possible to walk on whilst concealing everything away neatly and safely inside. You also have the option to lock these checkerplate covers in place providing some security when closed for the night or in storage.

This unit is TUV certificated

WINCHES:

For 4 person bungee trampoline we use Dragon Winch motors which we find the best on the market. It has alpin rope instead of the wire rope.

BUNGEE CORDS:

The bungee cords are made in Germany with TUV certificated loops and give 300% expansion.

TRAMPOLINE BEDS:

The trampoline beds consist of a galvanised steel frame (won't rust like some cheaper materials and won't puncture as is possible with inflatable trampolines). Through much experience we and our customers have found the elastic system to be far preferable to the spring trampolines. The elastic attachments stay permanently fixed until it's time to replace them. Around the galvanised steel frame is a padded cover to protect the jumpers' feet. The whole trampoline bed is permanently attached to the base unit (trailer). When packing away, the trampoline beds simply fold in half and then fold up to the trailer (reverse for unpacking).

Everything needed for the Bungee Trampolines packs on or in the trailer.

INCLUDED IN THE PRICE:

ELASTICS & HARNESSES

One set of high quality elastics, each elastic is for 12 kg, 14 in one set. 4 harnesses of: 1xs, 1s, 1m, 1L

15 kg - 25 kg
Harness xs - red

25kg - 35 kg
Harness s - blue

Our best-selling, high-quality harnesses have been manufactured by us since 2003, with continuous innovations to enhance their performance. We use premium COBRA buckles from Austrialpin, ensuring maximum safety and durability. Designed for comfort, our harnesses are easy to put on, adjust, and securely fasten, providing a seamless experience for users.

1Harness L - green
ADULTS

35kg - 55 kg
Harness M - black

Our designers have paid meticulous attention to detail, incorporating our revolutionary “big clips” buttons that eliminate finger pain even after dozens of fastenings in a single day.

Comfort is further enhanced by carefully designed, comfortable sponges that make every jump more enjoyable. Additionally, each belt is equipped with an integrated handle, making the harness easier to remove quickly and efficiently.

HIGH QUALITY ELASTICS FOR BUNGEE TRAMPOLINES

READY SET OF 14 PIECES, DIAMETER: 10MM

LENGTH: 235 CM or 255 cm (depending on the height of the structure)

This elastic is produced for our special order in Germany. It has an excellent properties, adapted for use in eurobungee. Minimum elongation is 250% on the one hand and perfect elasticity of the other, make our product best available on the market. Thin rubber latex gloves are covered with material so that the rubber is resistant for the weather conditions.

Each set consists of 14 elastics. Each rubber is calculated for 12 kg. The length of the rubber is about 2.35 meters, or 2.55 meters - however, when ordering please specify the bungee trampoline high properly so that we will make correct length of the rubber.

LATEX BUNGEE ELASTICS FOR BUNGEE TRAMPOLINE

READY SET OF 14 PIECES

LENGTH: 180 CM, DIAMETER: 13MM

Set consist of 14 pieces of latex cords for bungee trampoline. Ready with intake to connect with carabiner.

ROPE DIMENSION:

- 13mm

LENGTH:

- 180 cm - suitable for bungee trampoline from
- 6 meters up to 7 meters 1 rope is for 10kg
- weight Jump is 3 x better than on the normal ones but You must replace it more often.

BALL BEARING ALUMINIUM SWIVEL

FEATURES:

- Can be rotated 360 degree, and the rope does not twist knot
- Wide eye openings can fit for multiple carabiners
- Tensile force: 30KN (about 3000kg)
- Material: Hot forging aluminum magnesium alloy, strong and durable

PRODUCT SIZE (L X W X H):

- 10.80 x 5.50 x 3.00 cm / 4.25 x 2.17 x 1.18 inches

SWIVEL INOX 8 MM

TENSILE FORCE:

- 25KN (about 2500kg)

ALUMINIUM CARABINER

FEATURES:

This is a high performance, lightweight locking biner suitable for a wide range of uses, from trad climbing right through to winter climbing and of course bungee trampolines !

- Compact hot-forged light alloy carabiner with screwgate, designed for mountaineering and sport climb in general
- classic shape, particularly robust and strong
- Main axis load: 28 kN , Measures: 11 cm x 7 cm, Certification: EN 12275

PULLEY:

- Working load: 390 kg
- Breaking load: 1560 kg

WINCH / MOTOR FOR BUNGEE TRAMPOLINE

Of the many available on the market winches offered by us, only the Dragon Winch 1050W can work on eurobungee. We have tested over 10 products and we fully guarantee the reliability of Dragon Winch.

ALPIN ROPES FOR BUNGEE TRAMPOLINE

Set of static alpin ropes 10 mm with carabiners and pulleys
